FRANCE CONSENTS TO SEPARATE RUHR VALLEY ACTION

WAY IS CLEARED AS TURNING POINT IS REACHED

LONDON, July 29.—Under pressure from the American-British banking group, France has yielded her rights to separate action and Premier Herriot proposes to offer military evacuation of the Ruhr on October 15th, according to reliable information from the interallied conference. This is regarded as the turning point in the conference, which now only awaits the formal offer by France to this effect before going ahead with the machinery of the experts plan.

PARIS, July 29.—"The thought of failure of the London conference is too grave to be considered in cold blood," Secretary of State Charles Evans Hughes said today in an interview, adding:

"I have the firmest confidence that the conference will find a solution. Everybody I met in London said so."

Hughes and other delegates to the bar association conference were received at the American chamber of commerce at noon.

The allied conference today tackled important financial, economic and military problems rather than immediate questions strictly associated with putting into effect the experts reparations plan.

French bankers arrived from Paris and were understood to have brought up the question of interallied debts. The French were reportedly anxious to know whether Britain's future policy contemplated a request for payment from France after an international loan has been floated for Germany.

A relatively small amount of this loan will be raised in France, the bankers said, because France is not concerned with Germany's industrial revival, believing Germany will recover rapidly enough without allied assistance.

With such divergent discussions as these in sight, after it had been promised that the delegates would stick closely to consideration of the Dawes-McKenna reports, observers estimated the conference may last for several weeks.

Man Makes Bond Following Murder On Election Day

SAN ANTONIO, July 29.—James Lubbock, who has charged with having killed J. L. Culp, a prominent politician, was released from the county jail today on a \$5,000 bond. The man was arrested on the charge of murdering Culp, a prominent politician, on election day.

Trouble began at the polls, according to Culp's son-in-law, J. B. Nash, when a deputy sheriff walked through the voting place with a gun. When the deputy showed his quarters Deputy Sheriff Knight was sent to the voting box with Lubbock, who was not an officer.

CHICAGO, July 29.—Hog prices advanced another 10 to 70 cents. The average price is \$11.16 per hundred.

LIMESTONE COUNTY DEMOCRATIC CONVENTION TO BE HELD SAT'DAY TO PLAN FOR STATE CONVENTION

County democratic conventions will be held next Saturday, August 2, and at that time delegates will be chosen to the democratic state convention, which will meet this year in Austin on September 2.

This state convention will in turn nominate the democratic ticket, based on primaries which have and will have been held before that date, to be voted on in November, and will write the

state party platform, elect members of the state democratic executive committee, select a chairman for the state committee and handle such other party business as may come before the body.

Delegates have been chosen by precinct conventions held last Saturday in Limestone County and these will meet Saturday at Groesbeck for the county convention.

BRAZIL TROOPS BRING ORDER TO BESIEGE DISTRICT

RIO DE JANEIRO, July 29.—Federal troops are bringing about order in Sao Paulo today and normal conditions are being restored.

Governor Carlos De Campos has returned and re-assumed his position as chief of the state government. Martial law continues, however.

The main column of the rebel troops, which evacuated Sao Paulo yesterday, appears to have escaped into the interior. Although this is not confirmed by today's official communique, which merely says:

"The revolutionary leaders have escaped but the government has ordered their capture."

It is assumed here that the rebels are disbanding and fleeing toward the wild country of the interior of Mato Grosso.

There can be no doubt but that the rebellion is practically over and that the victory of the government of President Bernardes is complete. The rebels, after more than three weeks of bitter fighting found their position hopeless when support they had expected from other parts of the country failed to materialize.

MIDLAND'S BONDS APPROVED
AUSTIN, Texas, July 29.—T. Paul Burton, youngest mayor in Texas, was here Monday from Midland and obtained the Attorney General's approval to Midland bond issues, serials, \$400,000 for sewers and \$7,000 for waterworks.

SPLAWN RESIGNS

AUSTIN, Texas, July 28.—Dr. Walter M. W. Splawn, president of the Texas University, submitted to Governor Neff his resignation as a member of the railroad commission, effective August 1st. It is not intimated who will succeed him.

WORLD'S CHAMP BURGLAR GETS 20 YEARS IN PEN

LOS ANGELES, July 29.—Melvin C. Nelson, self-styled "world's champion burglar," is waiting here to be taken to San Quentin Prison to begin a twenty-four year term. Nelson claimed to have engaged in 1300 robberies in all parts of the country.

NEW YORK, July 29.—Directors of the United States Steel declared a 50 cents extra dividend in addition to the regular quarterly disbursement.

STATE HIGHWAY BODY MEETS

AUSTIN, Texas, July 29.—The State Highway Commission in regular monthly session Monday considered several applications for designations and redesignations of highways. Only a few applications for aid for road construction were presented. The commission at this session is expected to elect a secretary to fill the vacancy caused by the death of V. D. Fulger July 20.

ITALIAN FLYER FOUND

LONDON, July 28.—The Italian aviator Locatelli who set out from Pisa, Friday morning to join the American world flyers at Brough and accompany them across the Atlantic, has been located, some 48 hours later, near Marseilles, according to today's Daily Telegraph.

COAL FIELD WAR

WILBURTON, Okla., July 29.—Preliminary hearing for nearly forty persons in connection with the Latimer county coal field war, which came to a head more than a week ago, when union sympathizers forced non-union workers to leave the Kalla-Inla mine near here, has been reset for August 12.

The hearing, scheduled for today, was extended after counsel for the defendants filed and were granted a motion for fifteen days continuance according to County Attorney Claude Briggs.

Thirty eight warrants charging riot and to riot incitement have been served and three others issued are still outstanding. All defendants have entered pleas of not guilty, Briggs said.

Texas Has Lots Of Material For Roads

AUSTIN, Texas, July 29.—An abundance of good material for the construction of highways exists in Texas, according to G. A. Parkinson, assisting testing engineer in the Bureau of Economic Geology at the University of Texas. As an evidence of the progress of the good roads program in Texas, during the last several months there have been received and tested by Mr. Parkinson a total of 550 samples of road building material since January 1, 1924. This exceeds the record for all of last year, Mr. Parkinson said. The samples have come from nearly every part of Texas where highway construction is proposed or in progress.

Another proof of the advancement that is being made in good roads construction is the big increase in the number of rock crushing plants. The demand for crushed rock is constantly increasing, it is asserted. Many of these plants are owned and operated by road contractors. There has also been a marked improvement in the strength of concrete used in public works in Texas, Mr. Parkinson declared. Formerly this material was not up to the approved standard, but this is no longer the case. There is said to be more or less laxity, however, in the quality of concrete that is often used for private construction.

COMPLETE RETURNS TO APPEAR WEDNESDAY

The Mexia Daily News will carry the complete returns of Limestone County in Wednesday's issue. The partial returns carried Monday were sufficient to indicate the strength shown by each candidate, although a few errors were made in the tabulation.

FATTY ARBUCKLE PLEADS GUILTY AND SEEKS CHANCE

KANSAS CITY, Mo., July 29.—Roscoe "Fatty" Arbuckle, former film comedian, won over his hardest audience here last night when he appeared before the city council and pleaded for permission to go on with his act at a local theatre. The fat comedian who has been trying to stage a comeback since his acquittal in connection with the death of Miss Virginia Rappe, asked the council for forgiveness and a "chance to live a clean decent life and pay my debts."

Arbuckle's appearance was the result of a resolution introduced by Mrs. Margaret Shepard, woman alderman, barring the actor from local theatres. While the resolution was being read, Arbuckle entered the meeting room. Before a vote was taken he asked for and received permission to speak.

In a brief but earnest talk to the council, Arbuckle told of his efforts to "beat back."

"I come to you as Mary Magdalene," asking forgiveness, the comedian concluded.

The members of the council took a five minute recess. They crowded around the comedian and fired questions at him.

When they re-convened the resolution that would bar Arbuckle from theatres here was defeated 10 to 5. Three of four women members of the council voted to give Fatty a chance.

I&GN Acquisition Would Add Greatly To Pacific System

NEW ORLEANS, July 29.—Acquisition of the International and Great Northern Railroad by the Missouri Pacific would add approximately \$2,000,000 to the latter road's yearly revenue, according to William H. Williams, chairman of the board of the Missouri Pacific. Williams is appearing before the Louisiana Public Service commission which is hearing arguments for and against the proposed merger.

The state commission is opposing the move on the ground that it would impair the freight service of the state. Williams contends the merger would work to the advantage of Louisiana shippers.

MIRIAM FERGUSON PREDICTS VICTORY FOR SELF IN RACE

TEMPLE, Texas, July 29.—"I'm glad for Jim's sake," said Mrs. Ferguson, "Miriam will be hard to beat. We are all satisfied with the way things are going," said James E. Ferguson, impeached governor. Thus the first woman gubernatorial candidate and her husband expressed their pleasure at the election returns from Saturday's primary, showing 4000 lead over Lynch Davidson at noon today. Ballots remaining uncounted are from the outlying districts where "Farmer Jim" is conceded strength.

"It's not all chivalry—these votes I'm getting," said Mrs. Ferguson, who made the race to clear the family name. "The good people know I am running on a platform of honesty and economy in government and that's why I'm going to be the next governor of the state. I'm glad for myself, but more glad for Jim."

And Farmer Jim, admitted to be one of the shrewdest political campaigners in the state, is sitting back smiling.

Ad Valorem Tax Rate Determined

AUSTIN, Texas, July 29.—An ad valorem tax rate of 35 cents on the \$100 valuation, the constitutional limit, was fixed Monday by the state automatic tax board for the fiscal year 1924-25. The rate for school purposes was placed at the same figure, 35 cents, and for Confederate pensions at five cents, making a total of 75 cents. This is the same as the present rate.

The rate is based on a total assessed valuation of about three and a half billion dollars for the entire state. This rate will produce about \$12,128,131 for general revenue purposes which will be about \$922,753 short of the necessary expenses for the coming year which it is estimated will be the state deficit on September 1, 1925, unless the receipts prove greater than expected or the legislature appropriates less money than contemplated. The tax board is composed of the governor, the comptroller and the treasurer.

ALMOST 100,000 BALLOTS TO BE YET COUNTED IN STATE

Texas Election Bureau
DALLAS, Texas, July 29.—Mrs. Miriam Ferguson had a lead of 3,806 votes over Lynch Davidson for second place in the Governor's race at noon Tuesday. She had gained slightly on him since the returns were given out at midnight which indicated a lead for her of 3,389 votes. More than 600,000 votes have already been tabulated by the Election Bureau.

The other races have reflected no significant changes.

There are possibly around 100,000 votes yet out, the indications being that the total will show around 700,000 votes polled.

The lead of Mrs. Ferguson over Lynch Davidson has been cut down by about 1500 since eight o'clock Monday night. A steady current seems to have set in for Mrs. Ferguson, and barring the unforeseen, she will be the one to fight it out with Judge Felix D. Robertson. The latter's lead over Mrs. Ferguson was more than 43,000 votes.

In the Attorney General's race the run off will be between Moody and either Ward or Wall. Ward and Wall are running neck and neck, with over 125,000 votes.

Miller and Edwards are to run it off for Lieutenant Governor. They are also playing seesaw, first one up and then the other.

The vote of the four highest candidates for Governor now stands:

Lynch Davidson, 118,188.
Ferguson, 121,791.
Robertson, 165,248.
Whit Davidson, 103,413.

Limestone Cotton Needs Rain Badly

Rain is seriously needed by the cotton producers of Limestone county. In the Coolidge area, the prolonged hot season has caused the crop to decline probably to around 67 points. The prospects point to an average of little better than a quarter of a bale to the acre. A good rain right away would probably pull the average up to around 75 points for the county, as well as for Navarro, Hill and Falls counties. In spots the cotton is as good as any year in the history of the county.

SALVATIONISTS TO HOLD ROUSING OPEN AIR MEETING

There will be a special meeting at the Salvation Army Hall tonight, the 29th, at 8:15 p. m. preceded by a rousing open air service at 7:15 on the corner of Commerce and Sherman streets.

Lieutenant J. F. Fuller and his sister Marguerite of Corsicana, Texas, will be in charge of the meetings. The Lieutenant is no stranger to Mexia, having been connected with the Corps here a few months ago.

Music and singing will be a special feature of these meetings. The public is cordially invited to attend.

THE WEATHER

East Texas.—Tonight and Wednesday partly cloudy, probably scattered showers in northwest.

West Texas.—Tonight and Wednesday partly cloudy, probably showers in north and southwest.

DUB TOURNAMENT IS ON AT GOLF COURSE

The Dub Tournament at the Country Club got under way this afternoon. A large crowd of spectators is at present the rivalry is keen and a large crowd of spectators is looking on. The affair has aroused more interest and excitement than anything yet that has happened on the golf links here. The ladies are keeping the score and it looks as if the winner will receive first prize.

BOOM FOR DAVIS ON

YOUNGSTOWN, Ohio, July 29.—The clerk of the County Court here recently was reading a newspaper which carried a glaring headline on the Democratic Convention at New York:

"BOOM FOR DAVIS IS ON."

A couple came in, arm in arm, and applied for a marriage license. The clerk got out the necessary sheet and asked for their names.

"Her name is Miss Blodwen R. Davis. Mine is Elmer W. Davis."

The clerk unconsciously gazed at the newspaper headline:

"BOOM FOR DAVIS IS ON."

Judge Davis signed the certificate.

SITS ON DYNAMITE AND IS AMAZED AT SYMPATHY

VISALIA, Cal., July 29.—Earl Wootman, who has been fighting for a long time, sits on dynamite and is amazed at the sympathy of the people.

Only the other day a few sticks of dynamite—just fifteen or so—chanced to explode while he was sitting on them and gave him quite a little ride in the air.

People were quite solicitous when he landed, expecting to see a hospital—or morgue—case.

"The dynamite didn't hurt me. But the hard ground where I landed kinda knocked me out," Wootman said, much to the surprise of his would-be mourner.

Fine Watches Are Seldom Used Now

FORT WORTH, Texas, July 29.—According to J. G. Bergern, Fort Worth watchmaker, the late Czar Nicholas of Russia carried the most expensive watches known. Bergern, who used to repair the Czar's timepieces and look after the clocks in the imperial palace in St. Petersburg, says the Czar had two watches each valued at \$3500. Twenty-one precious stones were the jewels.

As for the clocks in the palace they were worth a paltry \$50,000 each, according to Bergern.

Bergern came to America from Russia in 1905, and has traveled over most of the country since. He deplores the fact that men do not carry fine watches as they once did.

Bergern blames this condition on the automobile. Poor men, who cannot afford a fine watch and an automobile too, choose the auto and depend on cheap watches for the time.

Good watchmakers are not any more plentiful than really fine watches, Bergern says. Boys who start to learn the trade give it up usually before they finish the three years necessary.

EPIDEMIC RAGES IN SOUTH AND SOUTHWEST STATES

UNDATED.—Approximately 10,000 head of live stock are dead from anthrax which is sweeping Kansas, Tennessee and Mississippi according to reports to the United States.

State and federal forces are combined in a desperate effort to check the scourge, which is reported as spreading.

Nine farmers are dead in Arkansas. Eight deaths in Mississippi.

THREE INJURED IN CAR COLLISION PAST WEEK END

TUESDAY'S GAME ONE OF BEST YET PLAYED IN MEXIA

By HECK

Shades of Mathews! Did you see that game at the ball yard Monday between the Gushers and Indians? If not, then it was just your hard luck for they staged about the best game seen in these parts since Davy Crockett was in knee pants and that means some considerable time. Carson sent Mike Schmid to the mound to try to win an even break for the slipping Indians and Mike turned in the best game of his career. Manager Fowlkes sent Jeffries to the mound for the Gushers and the Tehuacan Kid held the Indians at bay until the sixteen round when he weakened and was touched for four hits that were coupled with about the worst bit of umpiring ever seen on the local lot and the Indians tallied four runs. Both clubs had many chances to

score during the long battle but in every instance the pitchers would tighten or some player would pull a brilliant bit of fielding that would hold runners from the plate. The Indians scored their first tally in the sixth frame and then secured but three hits in the next eight rounds but secured six in the last two when Jeff weakened. The Gushers scored their only counter in the fifth on successive hits by Williamson, Gopfert and Butler and for the next eleven rounds were held to four meek hits by Schmid. I believe that the bad work of Umpire Stone had more to do with Jeff weakening than anything for time and time he would call an apparent groove strike a ball and thus continually kept Jeff in a hole and forced to pitch to his limit at all times which in a long battle like that one Monday would cause any pitcher to break under the gruelling fight. The game was marred by the "off color" work of both clubs to wrangle and fuss with him all afternoon. Early in the game Stone ordered Jimmy Thrash, Indian outfielder, from the game for questioning a called strike but during the balance of the game the players of both clubs did far worse than Jimmy but none were parked

or even fined and it is just such umpires as Stone that makes a farce of the game which in turn reflects on the box office receipts. I don't know whether the police protection would have been necessary for Stone after Monday's game or not but I did notice that Stone welcomed the officers when they came upon the field to escort him to town. The Gushers handled eighty three chances in the field with but two errors while the Indians handled sixty five with one error. The Gushers had thirty four assists which comes near being a record and Naylor with his thirty one putouts at first base gives an indication of the effective pitching of Jeffries. The Gushers are at Corsicana for a four day tilt with the Oilers and then return home August 2 for a four game tilt with the Temple Surgeons.

WATCHING THE SCOREBOARD

Yesterday's hero—The aging veteran, Allan Sotheron of the Cards, who showed there was life in the old soup bone yet by pasting their second shut out of the year on the Giants, 6-0.

The Yankees went back into first place by winning a double header from the White Sox, which included Babe Ruth's 31st homer and ten runs in the first inning of the second game. Scores 8-3 and 12-10.

Coveleskie outpitched Megridge as the Indians took the second game of their series with Washington 2-1.

The Red Sox scored five runs in their half of the tenth after the Browns had tied the score in the 9th and Manager Sisler protested the game which St. Louis lost 10 to 5. Sisler claimed the Sox batted in the wrong order.

A Cub rally in the ninth fell short by one run and the Phillies won 12-11. Lamar of the Athletics hit a homer with two on in the eleventh and Detroit tumbled out of first place, beaten 7 to 4.

Emile Osborne of the Dodgers walked five men in the first inning and the Reds scored three runs, enough to win 3 to 2.

Yde won his seventh straight game for Pittsburgh, holding the Braves to 7 hits, the Pirates winning 5 to 2.

CHICAGO.—Thirty-two thousand fans crowded the White Sox Park yesterday for the double-header between the Yanks and Sox. Several thousand were turned away.

SEABRIGHT, N. J.—The playing of "Little Bill" Johnson and Mary K. Browne in the men's and women's singles of the 31st annual invitation tennis tournament at the Sea Bright lawn tennis and cricket club, featured the opening day's play and made them favorites for the bowls.

FIGHTS AND FIGHTERS

CHICAGO.—The match between Ted Taylor, Terre Haute and Pete Sarmiento, Filipino junior featherweight, was definitely slated yesterday

for the Aurora Arena on the night of August 8.

NEWARK.—Quinto Romero, Chilean heavyweight, outpointed Charley Weinert of Newark in a bout in which there was lots of action, the New Jersey boxer being on the verge of a knockout in the ninth.

COVINGTON, Ky.—Ted Marchant, English lightweight, gave Tommy Herman of Dayton, Ohio, a beating last night and then registered a technical knockout in the sixth when Herman went down without being hit and the scrap was stopped.

COLUMBUS, Ohio.—Ted Moore, European middleweight and Billy Britton, of Columbus, Kansas, battled 12 fierce rounds to a draw at Fairmont Arena.

Day Carries All Limestone Boxes In Recent Election

County Clerk J. L. Day was here from Groesbeck Tuesday morning and expressed great appreciation for the magnanimous support accorded him in the elections Saturday, when he was overwhelmingly re-elected to the office in which he is now serving his first term.

Mr. Day carried every box in the county, including Koss, the home box of his opponent. He received the largest vote of any county official in the Groesbeck box and was accorded 1058 votes in the Mexia box. The total vote received by Mr. Day in the county was 4811 to his opponent's 1416.

BOY SCOUTS MAY HELP KEEP MEXIA SANITARY AND SAFE FOR PUBLIC

An old man slipped on a banana peel in front of Tidwell's grocery store this afternoon, and while sprawled on the sidewalk, the story goes that he noticed a young boy looking on with interest.

"What's the matter with you? Do you think this is a free show?" demanded the old gentleman.

"No sir. That banana you slipped on cost me a nickel," replied the youngster, as he bent a hasty retreat. Fortunately the old man was not seriously injured.

The Boy Scouts of Mexia can do much toward getting the boys of Mexia to be careful and place all their peels in trash in the cans provided by the city for such purposes.

Karen Shriners at Waco are today enjoying a family picnic at Cameron Park. There will be a band concert at 7:30 this evening, followed by a dance. According to E. L. Crow, president of the Mexia Shrine club, several from here are expected to attend the festivities sometime during the day and evening.

THANKS VOTERS

I take this occasion to thank the voters and workers of Mexia, Tehuacana, Shiloh, Forest Glade and Point Enterprise for their assistance in my race for Justice of the Peace of Precinct No. 4 in the Democratic Primary of July 23, 1924. Seventy-two votes more would have given me a majority of all of the votes cast for justice of the peace. I will go into the second primary with the hope of winning a decided victory, and will appreciate your support and influence again.

Sincerely,
S. H. FLAKE.

The Art of Beauty

By H. M. DOUGLAS

The Time—The Place—

HOW often do we see some one criticise a girl for re-wearing her make-up in public.

"Why didn't she do all that at home?" they ask.

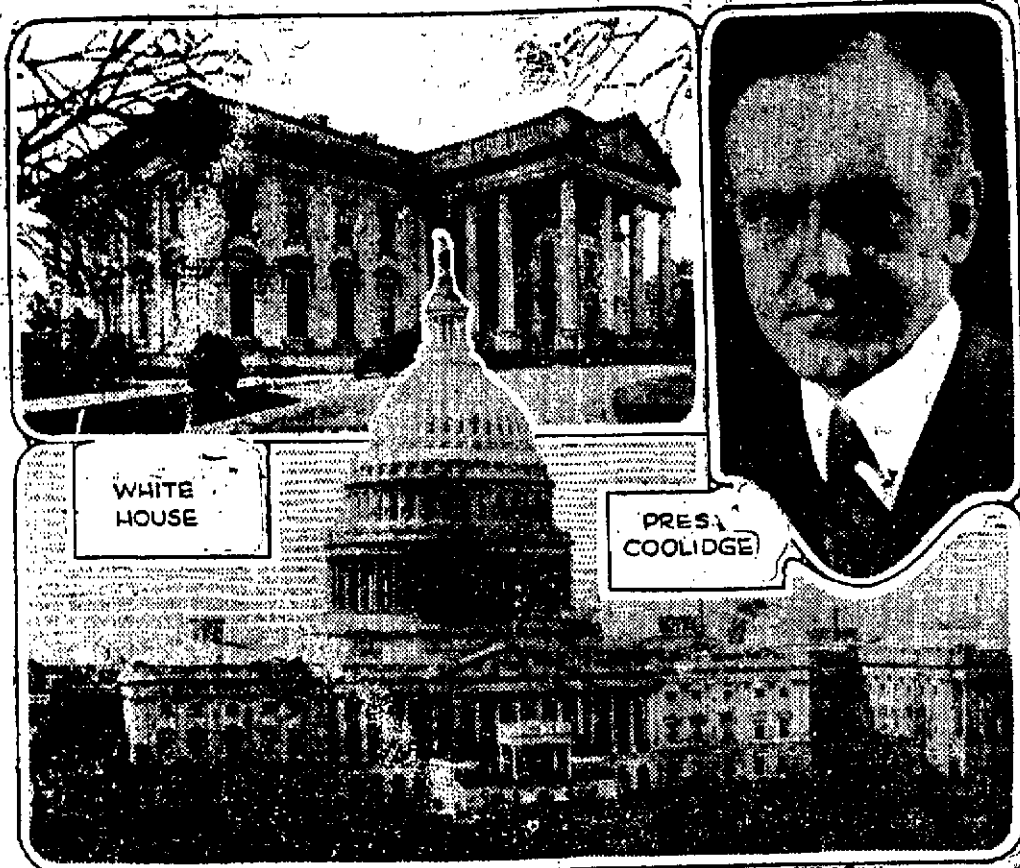

The answer is that of course she did. But probably she neglected to make-up at home by the same kind of light as that she is under now, and she finds that the make-up is entirely wrong. There is a vast difference between the make-up needed when one is surrounded by shaded lights and that when one is under the relentless glare of electric chandeliers.

A conservative woman who wears rouge in the daytime usually prefers a shade that tones so perfectly with her own color that, put on discreetly, it merely intensifies the little flush upon her cheeks. If her skin is olive her hair dark, she chooses a deep brunette tone like Ashes of Roses. If she is fair, a lighter, muted rosy shade gives her the perfect illusion of rosy color. However in the evening both of these women may prefer an effect that's a bit more exotic. The warm orange color of Mandarin rouge gives the dark haired woman a Spanish suggestion, and to the blond a piquant brightness of complexion.

But there is another matter that most of us forget about. Different costumes call for different make-up, so the final touches must be made after we are dressed. If you are wearing a Jeanne d'Alba dress, for instance you would not want heavily beveled eyelashes and blond white powder.

President Coolidge Will Address Fraternal Congress

WASHINGTON, D. C.—President Coolidge has accepted the invitation of W. K. Shirley of Muskogee, Okla., president of the National Fraternal Congress, to address the annual convention of the organization in Washington Aug. 25-28.

The men and women the chief executive of the nation will address are the leaders of the great fraternal societies of the United States with a membership of 10,000,000 and representing fraternal insurance of \$10,000,000,000.

The three-day convention will be held in the Raleigh Hotel.

"The convention," said President Shirley, "will be notable in that it will be the first national gathering of fraternal leaders ever to be honored by an address in person from the President of the United States. I had the pleasure of meeting President Coolidge and his wife recently at a dinner at the Washington home of Secretary of Labor James J. Davis and I was greatly impressed with the president's human side. He is kindly, sympathetic. He is not a great talker but he makes every word count and he is one of the best listeners I ever met. No one who comes in personal contact with him can fail to recognize his fine, manly character and intellectual strength."

Business of national importance to fraternal orders will come before the convention for discussion by the best fraternal brains of the country. President Shirley in his annual address will keynote the convention by advocating business methods in the government of fraternal orders and the necessity for a sound legal reserve basis in fraternal insurance.

EDGAR WITT RE-ELECTED TO STATE SENATE

Returns from the 13th senatorial district, composed of Limestone, Falls, McLennan and Milam counties, indicate that Edgar E. Witt has defeated Col. Harry P. Jordan by safe majority and will therefore serve another term in the upper house of the legislature. Col. Jordan carried Limestone county by about 14000, but seems to have lost in the other counties by majorities sufficient to offset his lead in this county and give him opponent a majority.

Noted Churchman Praises Karnak

Among the thousands of well-known men and women praising the celebrated new medicine, Karnak, is Rev. Dr. Marcus M. Vaughn, one of the most widely-known and universally respected ministers of Texas.

"For fifteen years," says Dr. Vaughn, who resides at 5331 Larkin St., Houston, "I suffered from a chronic stomach trouble and nervousness that finally compelled my retirement from the ministry. Frequently I had to remain in bed all day from sheer weakness. The best medicines and treatments failed to help me until I began taking Karnak. Two bottles of the medicine has completely overcome my troubles and I am again like my old self."

"For Mexia, I Will"

A PRODIGAL WITHOUT REPENTENCE.

There are some men who pose as Democratic leaders who should be read out of their party. They have elected themselves leaders, without the consent or the approval of the plain people who have built the party and maintain it. These fakirs appear every four years, at election seasons and sometimes at conventions, and attempt to seize control of the convention, so that men pleasing to them and a platform satisfactory to schemers and tricksters may be built.

The only reason these men are Democrats is because they have become obsessed with the idea of themselves getting up to the pie counter and if there was another party in this county or state that was in the majority, they would get into it, because the principles of the Democratic party are inimical to their way of looking upon things in general.

They believe government exists for the favored, special privilege classes and not for the masses of all classes. If wrecking the party is necessary for them to achieve their nefarious schemes, then they will wreck their party and how gleefully at the havoc wrought, flying at their prey like a pack of wolves over a lamb. These men choke the caucus rooms and go up and down the country during a campaign, talking first one way and then another, simply governed by where they are at, until there comes a chance to get some pie and then they step up to take preferred seats at the counter.

These hungry political sharks will oppose any and every man or woman who frowns upon their kind of folks and they fight for their own nominees, wanting some one who will tolerate their sharp practices and rejecting all others emphatically and without hesitation. The candidate who sees through their deceit and the voters who behold their hypocrisy and who do not support them are looked upon by them as avowed enemies.

Jim Ferguson is one of the tribe who would wreck the party, if in so doing he could win his own way. That has been proven in the past. When the party did not suit him, he simply got out of the party and tried to take enough with him to undermine the foundations that had been strengthened by such immortal statesmen as Thomas Jefferson, Andrew Jackson and the revered Woodrow Wilson. When he failed, then back he came into the party and brought his bunch back with him, and they form the nucleus of the support he received in the election last Saturday.

The Democratic party is like the good father told about in the marvelous story of the Prodigal Son. It is always willing to take back the wayward son, but the party should, at the same time, take the same good judgment of that father and be sure that it is taking back a penitent son. The poor boy came back home in rags and dirt, with the marks of dissipation written all over him, but his heart was broken and his soul was filled with remorse because of what he had done. He came back and asked to be taken in as a menial servant and to be fed only by the crumbs that might fall from his father's table.

But Jim Ferguson has the audacity to come back and ask to be regarded an honor seat, with full rations and to be reinstated above every other son of the Democratic party in Texas, and that a place be made for all the others who strayed off with him, or who took up arms with him against the old party that had honored him in two gubernatorial campaigns.

If the Democrats want their party to survive, they should think about such subjects and such candidates, and think long and seriously before they accept him or his kind.

The need of a county agent in Limestone County, for the benefit of the future farmers and housekeepers of the section, becomes more apparent each summer, according to citizens who have watched the regular annual trips of troops of young folks to A. and M. for the Summer Courses offered there. At present, many of the progressive and flourishing counties of the State are sending large classes to College Station for the benefit of the courses planned. Bell County is sending between 15 and 20 boys and girls to attend the short course and judging contest. When will Limestone get in line?

THE EDITORIAL OF THE DAY

ADVERTISING TEXAS SCENIC WONDERS

Houston Post

Governor Neff, touring Southwest Texas with the State parks' board inspecting sites offered to the State for permanent parks, is doing much to focus attention upon the scenic beauties and natural wonders of Texas.

What the governor has found in many of the sections he has visited is a revelation to many people, including Texans. The picturesque has long been associated with Texas, but this tour is bringing to light a side of Texas resources to which too little attention has been paid.

Why go to Colorado and other States noted for their natural scenery when Texas has scenic attractions to rival what those other States offer? The reason the people have been going elsewhere is because those other attractions have been more widely advertised to the world, and are thus better known. There is no reason why a Texan should leave the State to enjoy mountain grandeur, and Texas should be on the trail of every tourist coming West.

Colorado has a million excess population each year during the touring season. What that influx of recreation seekers means to Colorado it is easy to understand. Beautiful natural scenery in Colorado is an economic asset to the people of Colorado. The same sort of advantages in Texas will be of economic as well as recreational value to the people of Texas when they put their wonders of nature upon the tourist map.

While there may be some doubt

about the wisdom of accepting too many State parks for the State to keep up in future years, Governor Neff is rendering the State a service in what he is doing to bring to National attention Texas scenic resources. Not only will it encourage an appreciation of what Texas has in this respect and stimulate interest in outdoor recreation, a subject which is claiming National attention now, but it will help to turn the tide of travel in this direction, which will bring much material benefit to the State. We should say the governor's vacation, if such he calls it, is being profitably spent.

Mrs. Russell L. Satterwaite and niece Miss Dorothy Guthrie of Dallas are spending the week with Mr. Satterwaite who is plant superintendent of the Uvalde Paving Company. Mrs. Satterwaite is employed in the advertising department of the Dallas News.

Why Buy Mexia---Made Articles?

It's Good Business

THE SENTIMENTAL REASON, the urge of civic pride and local loyalty and all that class of argument, are the least important of the considerations in support of the more general practice of patronizing home-made articles. Those considerations are very well to make fine speeches about at civic meetings and they make excellent subjects for well-sounding phrases in editorials for popular consumption. But they are not the only, nor the best reasons!

Business is business; men manufacture and sell goods for reasonable profit; the great class of consumers buys when it believes it is getting, directly and indirectly, the value of its money. The Mexia manufacturer is in business for his health only because when he puts out a good article and gets a reasonable profit he can live better. He doesn't invest in a factory merely to add to the beauty and the growth and the statistics of the city and section. From this end of the matter it's business. And the Mexia manufacturer is a good business man; he gives values for the money; he makes articles of excellence, of a quality to compare unafraid with similar articles made in other sections. He gives the home folk an offer of full values for their cash—with the inducement that they frequently save much in transportation costs which must be added to price of the foreign-made article.

Hard business reasons in the main effect likewise the other side of the matter—the consumer's viewpoint. He buys home-made articles when he thinks it's good business to buy the product of the Mexia factory or mill or shop. If he can get as good value in the articles, he finds that he can save in cost—because there are no freight charges to be added. The Mexia manufacturing concerns are willing to meet the Mexia consumers on this basis—of quality of goods and as good or better prices for the same goods. But there is another indirect phase of the question—as a cold business proposition which should be remembered by the consumer.

When the Mexia buyer uses the Mexia-made articles he is not only getting value for his cash and a saving in freights, but he is putting his money where continually it will be coming back to him, a part of that which comes back to him being over and over again **PROFIT** to him.

When the Mexia buyer spends his money for Mexia-made articles his money goes largely into pay rolls and other expenses of manufacture, expense which make up the living of the vast army of those employed in all capacities by the manufacturing concerns. If the Mexia buyers would demand Mexia-made goods and buy them in volume greater than they now buy the concerns could expand, add more men to all departments, put out more money in Mexia to come right back to you whose incomes depend—no matter whether they are in commercial or professional life—upon the prosperity of **THIS CITY AND SECTION**.

There is a great invisible but practical, provable **RETURN** the people of Mexia get when they demand and keep using Mexia-made products.

One weakness in the scheme of home-use of home-made articles is that the people generally do not have an adequate conception of the wide range, the variety of the products which are turned out by local concerns. The Mexia Daily News has been for several months through local stories, editorials and advertisements calling attention to this fine list of Mexia industries that the people of Mexia may know the products made in Mexia.

Knowing what they can get that is made in Mexia, the Mexia buyers have only to figure out for themselves the good business in direct and indirect ways, in universally demanding the steadily using Mexia-made goods. In the part or margins of profit in your business in the money you keep at home to circulate unceasingly in Mexia, there is the certain rebate to **YOU** on every dollar you spend for Mexia-made articles, besides the money-worth of the article itself.

It isn't sentiment, it's sense; it isn't pride, it's cold dollars immediately and eventually made and saved—that's the cold, business reason—needing no argument—for **Trading at Home and Buying Home-made Articles**.

Mexia Is Offered National Office of Lone Star Trail

J. M. Hughes of the Lone Star Trail was in Mexia Tuesday morning and stated that he is now working out of Prairie Hill, marking the Lone Star Trail to Waco. The markers will all be posted within the next few days, after which the subject of locating the National Headquarters of the Lone Star Trail in Texas will be taken up. Mexia has a fine opportunity to secure the headquarters, simply by securing a membership of 300 citizens for the Lone Star Trail Association. Almost in the heart of Texas, easily reached by every large city and section of Texas Mexia is the logical location for the head quarters. The advertising secured through publicity that will be sent out for the Trail will be publicly highly advantageous to this section of Texas. Let the City that Vision is building go after this beacon and bring it home.

SURPRISE PARTY

Little Miss Joe Holleran, aged 8 years, only child of Mr. and Mrs. C. F. Holleran of 510 North Ross, is very fond of surprises, also of birthdays. The 21st was her mother's birthday, so for several days preceding this important date, Miss Joe having decided to celebrate with a surprise party was filled with mysterious activities.

Assisted by the neighbor ladies she made all the arrangements, ordered refreshments, and invited the guests. Then she proceeded to decorate the living room with mottoes and cut flowers. Occupying a conspicuous place on the wall was the words "Happy Birthday" formed of flower petals. The birthday cake was a thing of beauty, being snow white, richly embossed, and the words "Happy Birthday" done in white icing, formed a half circle.

Miss Joe was uncertain as to the exact age of her mother, so as she had to guess, she felt it safe to guess her own age, so there were eight diminutive candles on the cake. The candles were lighted one at a time, and as the honoree blew them out the guests in rotation voiced a birthday wish.

After partaking of iced refreshments the guests voted Miss Joe to be a royal entertainer, and her mother admitted that she had been very much surprised.

Showers and Peacock are much encouraged over prospects at the test they are now making near Thornton. The wildest is holding much interest.

DARROW TO ASK BOYS TO APPEAR IN CHICAGO CASE

By EDWARD C. DERR
(United Press Staff Correspondent)

CRIMINAL COURT ROOM, Chicago, July 29.—Chief defense attorney Clarence Darrow may place Nathan Leopold and Richard Loeb, slayers of Robert Franks, on the stand in their own defense, he indicated today. In his determination to leave no stone unturned in the fight to free them from the gallows, Darrow said he was prepared to put on the witness stand the boys' parents, their friends and the boys themselves.

"They probably will not take the stand unless some unexpected situation develops," was the last official word from Darrow, but according to sources close to the defense, the "unexpected situation" has developed. But whether or not the two young slayers are called upon to testify, members of their millionaire families are certain to take the stand. They will, it is understood, be called early and will be asked to tell of the home life and social activities of "Nate" and "Dickie." Foreman Leopold and Allen Loeb, older brothers of the "murder pair," who have been attending every session of the hearing; Leopold's father, and Jacob Loeb, Dickie's uncle, probably will represent the two families. Leopold's mother is not living and Loeb's father and mother are ill at their summer retreat at Charlevoix, Mich.

Then, when members of the families have told the court the intimate details of the two boys' lives, the battery of defense attorneys will be called. They will "interpret" testimony of the families in language of medical science and mental phenomena. It will be their task to show Leopold and Loeb—although legally sane enough to enter pleas of guilty to murder—are "mentally irresponsible" and should not be hanged.

First among the defense attorneys probably will be Dr. H. S. Hubbert, originator of the "king and slave" theory of the two boys' lives. His report, in which he found Loeb the "king" or "master mind," and Leopold the "slave" or "swallowing," will be introduced in an attempt to show that the youths reached only the climax of a long series of crimes when they lured Robert Franks into a rented automobile and killed him "for a thrill."

Dr. James Whittier Hall, generalissimo of the defense attorneys, will testify next if at all.

Following Hall, if he testifies, will be Doctors Bernard Glueck, New York; William A. White, Washington and William Healy, Boston.

But although the defense witnesses are not so numerous, their testimony will be stretched out over a considerable length of time because of certain cross-examination by the prosecution. Whereas Darrow admitted almost everything and waived cross-examination of most of the state's witnesses, his own witnesses will be subjected to rigid cross-questioning by Crooke and the other state attorneys.

Dr. Healy's court testimony along the lines of the physical report, showing the boys the victims of queer dreams, with Loeb envisioning himself in the role of the mother and Leopold picturing himself the follower—the "slave" and "king."

Neither Loeb nor Leopold has "mental stability," Dr. Healy holds. They are not insane in the full legal sense but are not sane only to a certain degree for their actions, he believes.

When the state rests its case—and this is expected some time today, Darrow and his assistant, Benjamin Bachrach will be given an opportunity to open the defense testimony. They are expected, however, to ask a bit of continuance, until Wednesday or possibly Thursday morning.

Hundreds of curious would-be spectators today petitioned for "passes" on the strength of reports that the two defendants would take the stand.

NEW YORK GIRL TO MARRY BRITISH EARL

EARL OF GALLOWAY & MISS PHILIPPA WENDELL
The engagement has been announced in London of Miss Philippa Wendell, of New York, to the Earl of Galloway, with whom she is pictured here at her mother's home, Sandridgebury, near London. Miss Wendell is a sister of the Countess of Carnarvon, whose father-in-law, the late Earl of Carnarvon, with Howard Carter, the American Egyptologist, discovered the tomb of King Tutankhamen, near Luxor, in the Valley of the Kings, Egypt.

Mrs. Homer Tolson returned from Houston Tuesday after a pleasant visit with friends. She is the charming daughter of Mr. and Mrs. W. E. Becker formerly of Mexia.

BIRTHDAY CELEBRATION HONORS 4 PERSONS SAT. AT TOLSON HOME

Saturday, July 28th, Mr. and Mrs. H. W. Tolson were host and hostess at a very enjoyable occasion. About a hundred relatives and friends met to celebrate the birthdays of Mr. Jim Callaway, Miss Eloise Dyson, Mr. H. W. Tolson and Miss Zelda Hunt. The 26th was the birthday of the first two, and the 27th was the birthday of the others.

The morning hours passed swiftly in pleasant conversation and in observing that mysterious process by which meat is barbecued. However, the appetizing odors caused all to welcome a call to dinner. On tables under the trees, was spread a wonderful feast, where huge platters of barbecue were surrounded by a variety of palatable dainties. On all sides, one heard praises of Mr. Arthur Callaway's skill in preparing meat.

In the afternoon, good fellowship and comradeship continued to hold sway, and the company wished that time might pause for an instant in his course. At a late hour the guests departed expressing their pleasure at this picnic. All declared that they would not regret the passing of the years if that passing could be marked by such happy events.—A guest.

GOV. NEFF BACK IN AUSTIN

AUSTIN, Texas, July 29.—Governor Neff returned to Austin Saturday after a visit of two weeks in Southwest Texas with the State Park Board. Fourteen park sites were secured, the smallest being fifteen acres and the largest 1,000 acres. The Governor traveled 2,300 miles by automobile and made thirty-three speeches in support of the program for creating an extensive and comprehensive system of parks throughout the State to be used for camping and recreational places. He said the most beautiful scenery was seen on the trip and that the Carlsbad cavern was a wonder of the world.

FRANCE CONSENTS TO SEPARATE RUHR VALLEY ACTION

WAY IS CLEARED AS TURNING POINT IS REACHED

LONDON, July 29.—Under pressure from the American-British banking group, France has yielded her rights to separate action and Premier Herriot proposes to offer military evacuation of the Ruhr on October 15th, according to reliable information from the interallied conference. This is regarded as the turning point in the conference, which now only awaits the formal offer by France to this effect before going ahead with the machinery of the experts plan.

PARIS, July 29.—"The thought of failure of the London conference is too grave to be considered in cold blood," Secretary of State Charles Evans Hughes said today in an interview, adding:

"I have the firmest confidence that the conference will find a solution. Everybody I met in London said so."

Hughes and other delegates to the bar association conference were received at the American chamber of commerce at noon.

The allied conference today tackled important financial, economic and military problems rather than immediate questions strictly associated with putting into effect the experts reparations plan.

French bankers arrived from Paris and were understood to have brought up the question of interallied debts. The French were reportedly anxious to know whether Britain's future policy contemplates a request for payment from France after an international loan has been floated for Germany.

A relatively small amount of this loan will be raised in France, the bankers said, because France is not not concerned with Germany's industrial revival, believing Germany will recover rapidly enough without allied assistance.

With such diversified discussions as these in sight, after it had been promised that the delegates would stick closely to consideration of the Daves-McKenna reports, observers estimated the conference may last for several weeks.

Man Makes Bond Following Murder On Election Day

SAN ANTONIO, July 29.—James Lubbock, who his charged with having killed J. L. Culppeper at Harland voting box Saturday, was released under bond of \$7,500 after a hearing. Only two witnesses testified, and their accounts of the trouble failed to tally.

Trouble began at the polls, according to Culppeper's son-in-law, J. B. Nash, when a deputy sheriff walked through the voting place whispering to the election officials. Better government supervisors asked the deputy to leave as he had no business within the polls, or to whisper to the judges. When the deputy phoned headquarters Deputy Sheriff Knight was sent to the voting box with Lubbock, who was not an officer.

LIMESTONE COUNTY DEMOCRATIC CONVENTION TO BE HELD SATURDAY TO PLAN FOR STATE CONVENTION

County democratic conventions will be held next Saturday, August 2, and at that time delegates will be chosen to the democratic state convention, which will meet this year in Austin on September 2.

This state convention will in turn nominate the democratic ticket, based on primaries which have and will have been held before that date, to be voted on in November, and will write the

state party platform, elect members of the state democratic executive committee, select a chairman for the state committee and handle such other party business as may come before the body.

Delegates have been chosen by precinct conventions held last Saturday in Limestone County and these will meet Saturday at Groesbeck for the county convention.

BRAZIL TROOPS BRING ORDER TO BESIEGE DISTRICT

RIO DE JANEIRO, July 29.—Federal troops are bringing about order in Sao Paulo today and normal conditions are being restored. Governor Carlos De Campos has returned and re-assumed his position as chief of the state government. Martial law continues, however.

The main column of the rebel troops, which evacuated Sao Paulo yesterday, appears to have escaped into the interior. Although this is not confirmed by today's official communique, which merely says: "The revolutionary leaders have escaped but the government has ordered their capture."

It is assumed here that the rebels are disbanding and fleeing toward the wild country of the interior of Matto Grosso.

There can be no doubt but that the rebellion is practically over and that the victory of the government of President Bernardes is complete. The rebels, after more than three weeks of bitter fighting found their position hopeless when support they had expected from other parts of the country failed to materialize.

MIDLAND'S BONDS APPROVED
AUSTIN, Texas, July 29.—T. Paul Barron, youngest mayor in Texas, was here Monday from Midland and obtained the Attorney General's approval to Midland bond issues, serials, sixes, being \$68,000 for sewers and \$7,000 for waterworks.

SPLAWN RESIGNS

AUSTIN, Texas, July 28.—Dr. Walter M. W. Splawn, president of the Texas University, submitted to Governor Neff his resignation as a member of the railroad commission, effective August 1st. It is not intimated who will succeed him.

WORLD'S CHAMP BURGLAR GETS 20 YEARS IN PEN

LOS ANGELES, July 29.—Melvin C. Nelson, self-styled "world's champion burglar," is waiting here to be taken to San Quentin Prison to begin a twenty-four year term. Nelson claimed to have engaged in 1500 robberies in all parts of the country.

COMPLETION RETURNS TO APPEAR WEDNESDAY

The Mexia Daily News will carry the complete returns of Limestone County in Wednesday's issue. The partial returns carried Monday were sufficient to indicate the strength shown by each candidate, although a few errors were made in the tabulation.

WORLD'S CHAMP BURGLAR GETS 20 YEARS IN PEN

LOS ANGELES, July 29.—Melvin C. Nelson, self-styled "world's champion burglar," is waiting here to be taken to San Quentin Prison to begin a twenty-four year term. Nelson claimed to have engaged in 1500 robberies in all parts of the country.

As for the clocks in the palace, they were worth a paltry \$50,000 each, according to Berger.

Berger came to America from Russia in 1905, and has traveled over most of the country since. He deplores the fact that men do not carry fine watches as they once did.

Berger blames this condition on the automobile. Poor men, who cannot afford a fine watch and an automobile too, choose the auto and depend on cheap watches for the time.

Good watchmakers are not any more plentiful than really fine watches, Berger says. Boys who start to learn the trade give it up usually before they finish the three years necessary.

Texas Has Lots Of Material For Roads

AUSTIN, Texas, July 29.—An abundance of good material for the construction of highways exists in Texas, according to G. A. Parkinson, assisting testing engineer in the Bureau of Economic Geology at the University of Texas. As an evidence of the progress of the good roads program in Texas, during the last several months there have been received and tested by Mr. Parkinson a total of 850 samples of road building material since January 1, 1924. This exceeds the record for all of last year, Mr. Parkinson said. The samples have come from nearly every part of Texas where highway construction is proposed or in progress.

Another proof of the advancement that is being made in good roads construction is the big increase in the number of rock crushing plants. The demand for crushed rock is constantly increasing, it is asserted. Many of these plants are owned and operated by road contractors. There has also been a marked improvement in the strength of concrete used in public works in Texas, Mr. Parkinson declared. Formerly this material was not up to the approved standard, but this is no longer the case. There is said to be more or less laxity, however, in the quality of concrete that is often used for private construction.

COMPLETE RETURNS TO APPEAR WEDNESDAY

FATTY ARBUCKLE PLEADS GUILTY AND SEEKS CHANCE

KANSAS CITY, Mo., July 29.—Koscoe "Fatty" Arbuckle, former film comedian, won over his hardest audience here last night when he appeared before the city council and pleaded for permission to go on with his act at a local theatre. The fat comedian who has been trying to stage a comeback since his acquittal in connection with the death of Miss Virginia Rappe, asked the council for forgiveness and a "chance to live a clean decent life and pay my debts."

Arbuckle's appearance was the result of a resolution introduced by Mrs. Margaret Shepard, woman alderman, barring the actor from local theatres. While the resolution was being read, Arbuckle entered the meeting room. Before a vote was taken he asked for and received permission to speak.

In a brief but earnest talk to the council, Arbuckle told of his efforts to "beat back."

"I come to you as Mary Magdalene—asking forgiveness," the comedian concluded.

The members of the council took a five minute recess. They crowded around the comedian and fired questions at him.

When they re-convened the resolution that would bar Arbuckle from theatres here was defeated 10 to 5. Three of four women members of the council voted to give Fatty a chance.

I&GN Acquisition Would Add Greatly To Pacific System

NEW ORLEANS, July 29.—Acquisition of the International and Great Northern Railroad by the Missouri Pacific would add approximately \$2,000,000 to the latter road's yearly revenue, according to William H. Williams, chairman of the board of the Missouri Pacific. Williams is appearing before the Louisiana Public Service commission which is hearing arguments for and against the proposed merger.

The state commission is opposing the move on the ground that it would impair the freight service of the state. Williams contends the merger would work to the advantage of Louisiana shippers.

NEW YORK, July 29.—Directors of the United States Steel declared a 50 cents extra dividend in addition to the regular quarterly disbursement.

MIRIAM FERGUSON PREDICTS VICTORY FOR SELF IN RACE

TEMPLE, Texas, July 29.—"I'm glad for Jim's sake," said Mrs. Ferguson. "Miriam will be hard to beat. We are all satisfied with the way things are going," said James E. Ferguson, impeached governor. Thus the first woman gubernatorial candidate and her husband expressed their pleasure at the election returns from Saturday's primary. Showing 4000 lead over Lynch Davidson at noon today. Ballots remaining uncounted are from the outlying districts where "Farmer Jim" is conceded strength.

"It's not all chivalry—these votes I'm getting," said Mrs. Ferguson, who made the race to clear the family name. "The good people know I am running on a platform of honesty and economy in government and that's why I'm going to be the next governor of the state. I'm glad for myself, but more glad for Jim." And Farmer Jim, admitted to be one of the shrewdest political campaigners in the state, is sitting back sailing.

Ad Valorem Tax Rate Determined

AUSTIN, Texas, July 29.—An ad valorem tax rate of 35 cents on the \$100 valuation, the constitutional limit, was fixed Monday by the state automatic tax board for the fiscal year 1924-25. The rate for school purposes was placed at the same figure, 35 cents, and for Confederate pensions at five cents, making a total of 75 cents. This is the same as the present rate.

The rate is based on a total assessed valuation of about three and a half billion dollars for the entire state. This rate will produce about \$12,128,151 for general revenue purposes which will be about \$922,753 short of the necessary expenses for the coming year which it is estimated will be the state deficit on September 1, 1925, unless the receipts prove greater than expected or the legislature appropriates less money than contemplated. The tax board is composed of the governor, the comptroller and the treasurer.

STATE HIGHWAY BODY MEETS

AUSTIN, Texas, July 29.—The State Highway Commission in regular monthly session Monday considered several applications for designations and redesignations of highways. Only a few applications for aid for road construction were presented. The commission at this session is expected to elect a secretary to fill the vacancy caused by the death of V. D. Fulger July 20.

ITALIAN FLYER FOUND

LONDON, July 28.—The Italian airman Locatelli who set out from Pisa, Friday morning to join the American world flyers at Brough and accompany them across the Atlantic, has been located, some 48 hours later, near Marseilles, according to today's Daily Telegraph.

PERFECT CASE FOR HANGING MADE OUT BY STATE

CHICAGO, July 29.—Having constructed what he termed a "perfect hanging case," States Attorney Crowe today buttressed his structure with the balance of confessions and other statements of Nathan Leopold, Jr., and Richard Loeb at the judicial hearing for the slaying of Robert Franks. These documents will conclude the state's case, Crowe said. He expects to rest the state's case early this afternoon.

Reports are current that chief defense counsel Darrow is considering changing the plea of guilty of murder to not guilty because of the introduction of "friendly judges" testimony by state witnesses.

COAL FIELD WAR

WILBURTON, Okla., July 29.—Preliminary hearing for nearly forty one persons in connection with the Latimer county coal field war, which came to a head more than a week ago, when union sympathizers forced non-union workers to leave the Kalla-Inla mine near here, has been set for August 12.

The hearing, scheduled for today, was extended after counsel for the defendants filed and were granted a motion for fifteen days continuance according to County Attorney Claude Briggs.

Thirty eight warrants charging riot and to riot incitement have been served and three others issued are still outstanding. All defendants have entered pleas of not guilty, Briggs said.

ALMOST 100,000 BALLOTS TO BE YET COUNTED IN STATE

Texas Election Bureau
DALLAS, Texas, July 29.—Mrs. Miriam Ferguson had a lead of 3,806 votes over Lynch Davidson for second place in the Governor's race at noon Tuesday. She had gained slightly on him since the returns were given out at midnight which indicated a lead for her of 3,389 votes. More than 600,000 votes have already been tabulated by the Election Bureau. The other races have reflected no significant changes.

There are possibly around 100,000 votes yet out, the indications being that the total will show around 700,000 votes polled.

The lead of Mrs. Ferguson over Lynch Davidson has been cut down by about 1500 since eight o'clock Monday night. A steady current seems to have set in for Mrs. Ferguson, and barring the unforeseen, she will be the one to fight it out with Judge Felix D. Robertson. The latter's lead over Mrs. Ferguson was more than 43,000 votes.

In the Attorney General's race the run off will be between Moody and either Ward or Wall. Ward and Wall are running neck and neck, with over 125,000 votes.

Miller and Edwards are to run it off for Lieutenant Governor. They are also playing seesaw, first one up and then the other.

The vote of the four highest candidates for Governor now stands:

Lynch Davidson, 118,188.
Ferguson, 121,791.
Robertson, 165,248.
Whit Davidson, 103,413.

Limestone Cotton Needs Rain Badly

Rain is seriously needed by the cotton producers of Limestone county. In the Coolidge area, the prolonged hot season has caused the crop to decline probably to around 67 points. The prospects point to an average of little better than a quarter of a bale to the acre. A good rain right away would probably pull the average up to around 75 points for the county, as well as for Navarro, Hill and Falls county. In spots the cotton is as good as any year in the history of the county.

SALVATIONISTS TO HOLD ROUSING OPEN AIR MEETING

There will be a special meeting at the Salvation Army Hall tonight, the 29th, at 8:15 p. m. preceded by a rousing open air service at 7:15 on the corner of Commerce and Sherman streets.

Lieutenant J. F. Fuller and his sister Marguerite of Corsicana, Texas, will be in charge of the meetings. The Lieutenant is no stranger to Mexia, having been connected with the Corps here a few months ago.

Music and singing will be a special feature of these meetings. The public is cordially invited to attend.

THE WEATHER

East Texas.—Tonight and Wednesday partly cloudy, probably scattered showers in northwest.

West Texas.—Tonight and Wednesday partly cloudy, probably showers in north and southwest.

CHICAGO, July 28.—Hog prices reached the highest point since the world war. The average cost \$10.50 per hundred, 40 to 85 cents higher for the day.

DUB TOURNAMENT IS ON AT GOLF COURSE

The Dub Tournament at the Country Club got under way this a large crowd of spectators is at present the rivalry is keen and a large crowd of spectators in looking on. The affair has aroused more interest and excitement than anything yet that has happened on the golf links here. The ladies are keeping the score and it looks as if the winner will receive first prize.

10,000 HEAD LIVESTOCK DIE OF ANTHRAX

SITS ON DYNAMITE AND IS AMAZED AT SYMPATHY

VISALIA, Cal., July 29.—Earl Wortman, who has been fighting for est fires around these parts, can't understand some people.

Only the other day a few sticks of dynamite—just fifteen or so—chanced to explode while he was sitting on them and gave him quite a little ride in the air.

People were quite solicitous when he landed, expecting to see a hospital—or morgue—case.

"The dynamite didn't hurt me. But the hard ground where I landed kinda knocked me out," Wortman said, much to the surprise of his would-be mourners.

SAFETY FIRST

DALLAS, Texas, July 30.—Worried over possibility of infection from blistered heels and toes, scores of persons have sought treatment at the emergency hospital since the death of Calvin Coolidge, Junior.

Whiskey and dry agents get a lot of men into trouble. Luxury is something that only a lucky man can afford.

Fine Watches Are Seldom Used Now

FORT WORTH, Texas, July 29.—According to J. G. Berger, Fort Worth watchmaker, the late Czar Nicholas of Russia carried the most expensive watches known. Berger, who used to repair the Czar's timepieces and look after the clocks in the imperial palace in St. Petersburg, says the Czar had two watches each valued at \$3500. Twenty-one precious stones were the jewels.

As for the clocks in the palace, they were worth a paltry \$50,000 each, according to Berger.

Berger came to America from Russia in 1905, and has traveled over most of the country since. He deplores the fact that men do not carry fine watches as they once did.

Berger blames this condition on the automobile. Poor men, who cannot afford a fine watch and an automobile too, choose the auto and depend on cheap watches for the time.

Good watchmakers are not any more plentiful than really fine watches, Berger says. Boys who start to learn the trade give it up usually before they finish the three years necessary.

EPIDEMIC RAGES IN SOUTH AND SOUTHWEST STATES

UNDATED.—Approximately 10,000 head of live stock are dead from an anthrax which is sweeping Tennessee and Mississippi according to reports to the United States.

State and federal forces are combined in a desperate effort to check the scourge, which is reported as spreading.

Nine farmers are dead in Arkansas. Eight deaths in Mississippi.

THREE INJURED IN CAR COLLISION PAST WEEK END

KANSAS CITY, Mo., July 28.—Three persons were injured, one dangerously, when a Kansas City & Kaw interurban car was wrecked near Munice, Kansas, last night. The car overturned after striking a horse. About fifteen passengers were on the car when the accident occurred.

BOOM FOR DAVIS ON

YOUNGSTOWN, Ohio, July 29.—The clerk of the County Court here recently was reading a newspaper which carried a glaring headline on the Democratic Convention at New York:

"BOOM FOR DAVIS IS ON."

A couple came in, arm in arm, and applied for a marriage license.

The clerk got out the necessary sheet and asked for their names.

"Her name is Miss Blodwen R. Davis. Mine is Elmer W. Davis."

The clerk unconsciously gazed at the newspaper headline:

"BOOM FOR DAVIS IS ON."

Judge Davis signed the certificate.

THIS WOMAN'S JOB IS HUNTING FOR TROUBLE

COLUMBUS, O., July 29.—Life is just a never-ending game of tag with trouble for Mrs. Vivian Coyle, Columbus matron. When the winged spectre of disorder isn't pursuing her she is chasing it.

But she doesn't complain. She's getting paid for her part in the game.

Mrs. Coyle's vocation is not followed by any other member of her sex in the United States, her employers believe. She is chief tester for the Ohio Bell Telephone Company's automatic lines.

Arranged before her on her desk are innumerable devices for curing the ills of the automatic trunks. By an almost uncanny manipulation of the divers switches, levers and dials, the system of which she has perfected during seven years of service, unruly wires are spotted, and the linemen do the rest.

A. M. Wesson and wife have just returned from a very pleasant automobile trip to Florence, Alabama, where they have been visiting the father of Mr. Wesson. They were only four or five days making the trip each way, and were in Alabama about two weeks.

TUESDAY'S GAME ONE OF BEST YET PLAYED IN MEXIA

By HECK

Shades of Mathews, did you see that game at the ball yard Monday between the Gushers and Indians? If not, then it was just your hard luck for they staged about the best game seen in these parts since Davy Crockett was in knee pants and that means some considerable time. Carson sent Mike Schmid to the mound to try to win an even break for the slipping Indians and Mike turned in the best game of his career. Manager Fowlkes sent Jeffries to the found for the Gushers and the Tehuacana Kid held the Indians at bay until the sixteen round when he weakened and was touched for four hits that were coupled with about the worst bit of umpiring ever seen on the local lot and the Indians tallied four runs. Both clubs had many chances to

score during the long battle but in every instance the pitchers would tighten or some player would pull a brilliant bit of fielding that would hold runners from the plate. The Indians scored their first tally in the sixth frame and then secured but three hits in the next eight rounds but secured six in the last two when Jeff weakened. The Gushers scored their only counter in the fifth on successive hits by Williamson, Gopert and Butler and for the next eleven rounds were held to four measly hits by Schmid. I believe that the bad work of Umpire Stone had more to do with Jeff weakening than anything for time and time he would call an apparent groove strike a ball and thus continually kept Jeff in a hole and forced to pitch to his limit at all times which in a long battle like that one Monday would cause any pitcher to break under the gruelling fight. The game was marred by the "off color" work of Stone who allowed the players of both clubs to wrangle and fuss with him all afternoon. Early in the game Stone ordered Jimmy Thrash, Indian outfielder, from the game for questioning a called strike but during the balance of the game the players of both clubs did far worse than Jimmy but none were parked

or even fined and it is just such umpires as Stone that makes a farce of the game which in turn reflects on the box office receipts. I don't know whether the police protection would have been necessary for Stone after Monday's game or not but I did notice that Stone welcomed the officers when they came upon the field to escort him to town. The Gushers handled eighty three chances in the field with but two errors while the Indians handled sixty five with one error. The Gushers had thirty four assists which comes near being a record and Naylor with his thirty one putouts at first base gives an indication of the effective pitching of Jeffries. The Gushers are at Corsicana for a four day tilt with the Oilers and then return home August 2 for a four game tilt with the Temple Surgeons.

WATCHING THE SCOREBOARD

Yesterday's hero—The aging veteran, Allan Sothern of the Cards, who showed there was life in the old soup bone yet by passing their second shut out of the year on the Giants, 6-0.

The Yankees went back into first place by winning a double header from the White Sox, which included Babe Ruth's 31st homer and ten runs in the first inning of the second game. Scores 8-3 and 12-10.

Coveleskie outpitched Mogridge as the Indians took the second game of their series with Washington 2-1.

The Red Sox scored five runs in their half of the tenth after the Browns had tied the score in the 9th and Manager Sisler protested the game which St. Louis lost 10 to 5. Sisler claimed the Sox batted in the wrong order.

A Cub rally in the ninth fell short by one run and the Phillies won 12-11.

Lamar of the Athletics hit a homer with two on in the eleventh and Detroit tumbled out of first place, beaten 7 to 4.

Ernie Osborne of the Dodgers walked five men in the first inning and the Reds scored three runs, enough to win 3 to 2.

Yde won his seventh straight game for Pittsburgh, holding the Braves to 7 hits, the Pirates winning 5 to 2.

Day Carries All Limestone Boxes In Recent Election

County Clerk J. L. Day was here from Groesbeck Tuesday morning and expressed great appreciation for the magnanimous support accorded him in the elections Saturday, when he was overwhelmingly re-elected to the office in which he is now serving his first term.

Mr. Day carried every box in the county, including Koss, the home box of his opponent. He received the largest vote of any county official in the Groesbeck box and was accorded 1058 votes in the Mexia box. The total vote received by Mr. Day in the county was 4811 to his opponent's 1416.

BOY SCOUTS MAY HELP KEEP MEXIA SANITARY AND SAFE FOR PUBLIC

An old man slipped on a banana peel in front of Tidwell's grocery store this afternoon, and while sprawled on the sidewalk, the story goes that he noticed a young boy looking on with interest.

"What's the matter with you? Do you think this is a free show?" demanded the old gentleman.

"No sir. That banana you slipped on cost me a nickel," replied the youngster, as he beat a hasty retreat.

Fortunately the old man was not seriously injured.

The Boy Scouts of Mexia can do much toward getting the boys of Mexia to be careful and place all their peels in trash in the cans provided by the city for such purposes.

Karen Shriners at Waco are today enjoying a family picnic at Cameron Park. There will be a band concert at 7:30 this evening, followed by a dance. According to E. L. Crow, president of the Mexia Shrine club, several from here are expected to attend the festivities sometime during the day and evening.

THANKS VOTERS

I take this occasion to thank the voters and workers of Mexia, Tehuacana, Shiloh, Forest Glade and Point Enterprise for their assistance in my race for Justice of the Peace of Precinct No. 4 in the Democratic Primary of July 23, 1924. Seventy-two votes more would have given me a majority of all of the votes cast for justice of the peace. I will go into the second primary with the hope of winning a decided victory, and will appreciate your support and influence again.

Sincerely,

The Time—The Place—The Make-Up

HOW often do we see some one criticize a girl for renewing her make-up in public.

"Why didn't she do all that at home?" they ask.

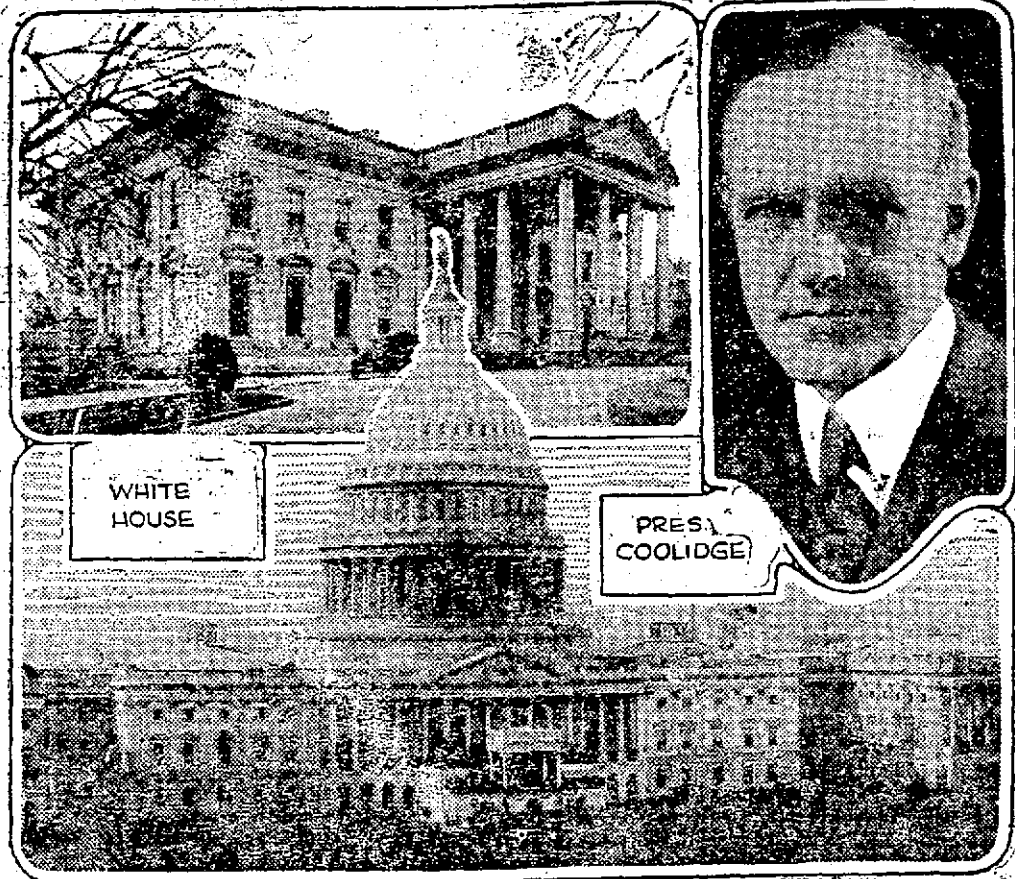

The answer is that of course she did. But probably she neglected to make-up at home by the same kind of light as that she is under now,—and she finds that the make-up is entirely wrong. There is a vast difference between the make-up used when one is surrounded by shaded lights and that when one is under the relentless glare of electric chandeliers.

A conservative woman who wears rouge in the daytime usually prefers a shade that tones so perfectly with her own color that, put on discreetly, it merely intensifies the little flush upon her cheek. If her skin is olive her hair dark, she chooses a deep brunette tone like Ashes of Roses. If she is fair, a lighter, muted rosy shade gives her the perfect illusion of rosy color. However in the evening both of these women may prefer an effect that's a bit more exotic. The warm orange color of Mandarin rouge gives the dark haired woman a Spanish suggestion,—and to the blond a piquant naughtiness of complexion.

But there is another matter that most of us forget about. Different costumes call for different make-up, so the final touches must be made after we are dressed. If you are wearing a jeans file dress, for instance you would not want heavily beaded eyelashes and dead white powder.

President Coolidge Will Address Fraternal Congress

WASHINGTON, D. C.—President Coolidge has accepted the invitation of W. R. Shirley of Muskogee, Okla., president of the National Fraternal Congress, to address the annual convention of the organization in Washington Aug. 25-28.

The men and women the chief executive of the nation will address are the leaders of the great fraternal societies of the United States with a membership of 10,000,000 and representing fraternal insurance of \$10,000,000,000.

The three-day convention will be held in the Raleigh Hotel.

"The convention," said President Shirley, "will be notable in that it will be the first national gathering of fraternal leaders ever to be honored by an address in person from the President of the United States. I had the pleasure of meeting President Coolidge and his wife recently at a dinner at the Washington home of Secretary of Labor James J. Davis and I was greatly impressed with the president's human side. He is kindly, sympathetic. He is not a great talker but he makes every word count and he is one of the best listeners I ever met. No one who comes in personal contact with him can fail to recognize his fine character and intellectual strength."

Business of national importance to fraternal orders will come before the convention for discussion by the best fraternal brains of the country. President Shirley in his annual address will keynote the convention by advocating business methods in the government of fraternal and the necessity for a sound legal reserve basis in fraternal insurance.

on a professional call, between Mexia and Coolidge, the doctor met a car which was stopped on the side of the road, in which this city man was driving.

"Mister, could you tell me what sort of a house that is," said the city dweller, as he pointed to a haystack in the distance.

"That isn't a house, my friend. That's a haystack," said Dr. Jackson. "Aw gwan!" replied the city chap.

"You can't fool me. Hay down't grow in a lump like that."

We want the news, all the news of all the people, while it is news, and requests the readers to send in or telephone 146 or 361 news items and personals of their friends and acquaintances.

Entered as second-class matter, February 26, 1919, at the Postoffice at Mexia, Texas, under the act of March 3, 1879.

"For Mexia, I WILL"
A PRODIGAL WITHOUT REPENTENCE.

There are some men who pose as Democratic leaders who should be read out of their party. They have elected themselves leaders, without the consent or the approval of the plain people who have built the party and maintain it. These fakirs appear every four years, at election seasons and sometimes at conventions, and attempt to seize control of the convention, so that men pleasing to them and a platform satisfactory to schemers and tricksters may be built.

The only reason these men are Democrats is because they have become obsessed with the idea of themselves getting up to the pie counter and if there was another party in this county or state that was in the majority, they would get into it, because the principles of the Democratic party are inimical to their way of looking upon things in general.

They believe government exists for the favored, special privilege classes and not for the masses of all classes. If wrecking the party is necessary for them to achieve their nefarious schemes, then they will wreck their party and howl gleefully at the havoc wrought, flying at their prey like a pack of wolves over a lamb. These men choke the caucus rooms and go up and down the country during a campaign, talking first one way and then another, simply governed by where they are at, until there comes a chance to get some pie and then they step up to take preferred seats at the counter.

These hungry political sharks will oppose any and every man or woman who frowns upon their kind of folks and they fight for their own nominees, wanting some one who will tolerate their sharp practices and rejecting all others emphatically and without hesitation. The candidate who sees through their deceit and the voters who fathom their hypocrisy and who do not support them are looked upon by them as avowed enemies.

Jim Ferguson is one of the tribe who would wreck the party, if in so doing he could win his own way. That has been proven in the past. When the party did not suit him, he simply got out of the party and tried to take enough with him to undermine the foundations that had been strengthened by such immortal statesmen as Thomas Jefferson, Andrew Jackson and the revered Woodrow Wilson. When he failed, then back he came into the party and brought his bunch back with him, and they form the nucleus of the support he received in the election last Saturday.

The Democratic party is like the good father told about in the marvelous story of the Prodigal Son. It is always willing to take back the wayfaring son, but the party should, at the same time, use the same good judgment of that father and be sure that it is taking back a penitent son. The poor boy came back home in rags and filth, with the marks of dissipation written all over him, but his heart was broken and his soul was filled with remorse because of what he had done. He came back and asked to be taken in as a menial servant and to be fed only by the crumbs that might fall from his father's table.

But Jim Ferguson has the indecency to come back and ask to be accorded an honor seat, with full rations and to be reinstated above every other son of the Democratic party in Texas, and that a place be made for all the others who strayed off with him, or who took up arms with him against the old party that had honored him in two gubernatorial campaigns.

If the Democrats want their party to survive, they should think about such subjects and such candidacies, and think long and seriously before they accept him or his kind.

The need of a county agent in Limestone County, for the benefit of the future farmers and housekeepers of the section, becomes more apparent each Summer, according to citizens who have watched the regular annual trips of troops of young folks to A. and M. for the Summer Courses offered there. At present, many of the progressive and flourishing counties of the State are sending large classes to College Station for the benefit of the courses planned. Bell County is sending between 15 and 20 boys and girls to attend the short course and judging contest. When will Limestone get in line?

THE EDITORIAL OF THE DAY
ADVERTISING TEXAS
SCENIC WONDERS

Houston Post
Governor Neff, touring Southwest Texas with the State parks' board inspecting sites offered to the State for permanent parks, is doing much to focus attention upon the scenic beauties and natural wonders of Texas.

What the governor has found in many of the sections he has visited is a revelation to many people, including Texans. The picturesque has long been associated with Texas, but this tour is bringing to light a side of Texas resources to which too little attention has been paid.

Why go to Colorado and other States noted for their natural scenery when Texas has scenic attractions to rival what those other States offer? The reason the people have been going elsewhere is because those other attractions have been more widely advertised to the world, and are thus better known. There is no reason why a Texan should leave the State to enjoy mountain grandeur, and Texas should be on the trail of every tourist coming West.

Colorado has a million excess population each year during the touring season. What that influx of recreation seekers means to Colorado it is easy to understand. Beautiful natural scenery in Colorado is an economic asset to the people of Colorado. The same sort of advantages in Texas will be of economic as well as recreational value to the people of Texas when they put their wonders of nature upon the tourist map.

While there may be some doubt about the wisdom of accepting too many State parks for the State to keep up in future years, Governor Neff is rendering the State a service in what he is doing to bring to National attention Texas scenic resources. Not only will it encourage an appreciation of what Texas has in this respect and stimulate interest in outdoor recreation, a subject which is claiming National attention now, but it will help to turn the tide of travel in this direction, which will bring much material benefit to the State. We should say the governor's vacation, if such he calls it, is being profitably spent.

Mrs. Russell L. Satterwaite and niece Miss Dorothy Guthrie of Dallas are spending the week with Mr. Satterwaite who is plant superintendent of the Uvalde Paving Company. Mrs. Satterwaite is employed in the advertising department of the Dallas News.

Why Buy Mexia---Made Articles?

It's Good Business

THE SENTIMENTAL REASON, the urge of civic pride and local loyalty and all that class of argument, are the least important of the considerations in support of the more general practice of patronizing home-made articles. Those considerations are very well to make fine speeches about at civic meetings and they make excellent subjects for well-sounding phrases in editorials for popular consumption. But they are not the only, nor the best reasons!

Business is business; men manufacture and sell goods for reasonable profit; the great class of consumers buys when it believes it is getting, directly and indirectly, the value of its money. The Mexia manufacturer is in business for his health only because when he puts out a good article and gets a reasonable profit he can live better. He doesn't invest in a factory merely to add to the beauty and the growth and the statistics of the city and section. From this end of the matter it's business. And the Mexia manufacturer is a good business man; he gives values for the money; he makes articles of excellence, of a quality to compare unafraid with similar articles made in other sections. He gives the home folk an offer of full values for their cash—with the inducement that they frequently save much in transportation costs which must be added to price of the foreign-made article.

Hard business reasons in the main effect likewise the other side of the matter—the consumer's viewpoint. He buys home-made articles when he thinks it's good business to buy the product of the Mexia factory or mill or shop. If he can get as good value in the articles, he finds that he can save in cost—because there are no freight charges to be added. The Mexia manufacturing concerns are willing to meet the Mexia consumers on this basis—of quality of goods and as good or better prices for the same goods. But there is another indirect phase of the question—as a cold business proposition which should be remembered by the consumer.

When the Mexia buyer uses the Mexia-made articles he is not only getting value for his cash and a saving in freights, but he is putting his money where continually it will be coming back to him, a part of that which comes back to him being over and over again **PROFIT** to him.

When the Mexia buyer spends his money for Mexia-made articles his money goes largely into pay rolls and other expenses of manufacture, expense which make up the living of the vast army of those employed in all capacities by the manufacturing concerns. If the Mexia buyers would demand Mexia-made goods and buy them in volume greater than they now buy the concerns could expand, add more men to all departments, put out more money in Mexia to come right back to you whose incomes depend—no matter whether they are in commercial or professional life—upon the prosperity of **THIS CITY AND SECTION**.

There is a great invisible but practical, provable **RETURN** the people of Mexia get when they demand and keep using Mexia-made products.

One weakness in the scheme of home-use of home-made articles is that the people generally do not have an adequate conception of the wide range, the variety of the products which are turned out by local concerns. The Mexia Daily News has been for several months through local stories, editorials and advertisements calling attention to this fine list of Mexia industries that the people of Mexia may know the products made in Mexia.

Knowing what they can get that is made in Mexia, the Mexia buyers have only to figure out for themselves the good business in direct and indirect ways, in universally demanding the steadily using Mexia-made goods. In the part of margins of profit in your business in the money you keep at home to circulate unceasingly in Mexia, there is the certain rebate to **YOU** on every dollar you spend for Mexia-made articles, besides the money-worth of the article itself.

It isn't sentiment, it's sense; it isn't pride, it's cold dollars immediately and eventually made and saved—that's the cold, business reason—needing no argument—for Trading at Home and Buying Home-made Articles.

Mexia Is Offered National Office of Lone Star Trail

J. M. Hughes of the Lone Star Trail was in Mexia Tuesday morning and stated that he is now working out of Prairie Hill, marking the Lone Star Trail to Waco. The markers will all be posted within the next few days, after which the subject of locating the National Headquarters of the Lone Star Trail in Texas will be taken up. Mexia has a fine opportunity to secure the headquarters, simply by securing a membership of 300 citizens for the Lone Star Trail Association. Almost in the heart of Texas, easily reached by every large city and section of Texas Mexia is the logical location for the head quarters. The advertising secured through publicity that will be sent out for the Trail will be highly advantageous to this section of Texas. Let the City that Vision is building go after this beacon and bring it home.

SURPRISE PARTY

Little Miss Joe Holleran, aged 8 years, only child of Mr. and Mrs. C. F. Holleran of 510 North Ross, is very fond of surprises, also of birthdays. The 21st was her mother's birthday, so for several days preceding this important date, Miss Joe having decided to celebrate with a surprise party was filled with mysterious activities.

Assisted by the neighbor ladies she made all the arrangements, ordered refreshments, and invited the guests. Then she proceeded to decorate the living room with mottoes and cut flowers. Occupying a conspicuous place on the wall was the words "Happy Birthday" formed of flower petals. The birthday cake was a thing of beauty, being snow white, richly embossed, and the words "Happy Birthday" done in white icing, formed a half circle.

Miss Joe was uncertain as to the exact age of her mother, so as she had to guess, she felt it safe to guess her own age, so there were eight diminutive candles on the cake. The candles were lighted one at a time, and as the honoree blew them out the guests in rotation voiced a birthday wish.

After partaking of iced refreshments the guests voted Miss Joe to be a royal entertainer, and her mother admitted that she had been very much surprised.

Showers and Peacock are much encouraged over prospects at the test they are now making near Thornton. The wildcat is holding much interest.

This New Treatment Never Fails to End Piles

Many sufferers from Piles or Hemorrhoids have become despondent because they have been led to believe that their case was hopeless and that there was nothing in the world to help them. To these people we say, "Go to your druggist and get an original box of MOAVA SUPPOSITORIES." One of these inserted into the rectum according to directions will be found to give immediate relief. They reach the source of the trouble and by their soothing, healing, antiseptic action first allay the pain and soreness and then by direct contact with the ulcers and piles cause them to heal up and disappear forever. It's simply wonderful how speedily they act. Blessed relief often comes in two days. Even in cases that have steadily resisted all known treatments, marvelous results have been obtained. All druggists dispense MOAVA SUPPOSITORIES in the original box or can get it for you on short notice. (Adv.)

DARROW TO ASK BOYS TO APPEAR IN CHICAGO CASE

By EDWARD C. DERR
(United Press Staff Correspondent)

CRIMINAL COURT ROOM, Chicago, July 29.—Chief defense attorney Clarence Darrow may place Nathan Leopold and Richard Loeb, slayers of Robert Franks, on the stand in their own defense, he indicated today. In his determination to leave no stone unturned in the fight to free them from the gallows, Darrow said, he was prepared to put on the witness stand the boys' parents, their friends and the boys themselves.

"They probably will not take the stand unless some unexpected situation develops," was the last official word from Darrow, but according to sources close to the defense, the "unexpected situation" has developed.

But whether or not the two young slayers are called upon to testify members of their millionaire families are certain to take the stand. They will, it is understood, be called early and will be asked to tell of the home life and social activities of "Nate" and "Dickie." Foreman Leopold and Allen Loeb, older brothers of the "murder pair," who have been attending every session of the hearing; Leopold's father, and Jacob Loeb, Dickie's uncle, probably will represent the two families. Leopold's mother is not living and Loeb's father and mother are ill at their summer retreat at Charlevoix, Mich.

Then, when members of the families have told the court the intimate details of the two boys' lives, the battery of defense alienists will be called. They will "interpret" testimony of the families in language of medical science and mental phenomena. It will be their task to show Leopold and Loeb—although legally sane enough to enter pleas of guilty to murder—are "mentally irresponsible" and should not therefore be hanged.

First among the defense alienists probably will be Dr. H. S. Hubbert, originator of the "king and slave" theory of the two boys' lives. His report, in which he found Loeb the "king" or "master mind," and Leopold the "slave" or "weakling," will be introduced in an attempt to show that the youths reached only the climax of a long series of crimes when they lured Robert Franks into a rented automobile and killed him "for a thrill."

Dr. James Whitney Hall, generalissimo of the defense alienists, will testify next if at all.

Following Hall, if he testifies, will be Doctors Bernard Glueck, New York; William A. White, Washington and William Healy, Boston.

But although the defense witnesses are not so numerous, their testimony will be stretched out over a considerable length of time because of certain cross examination by the prosecution. Whereas Darrow admitted almost everything and waived cross-examination of most of the state's witnesses, his own witnesses will be submitted to rigid cross questioning by Crowe and the other state attorneys.

Dr. Healy's report runs along the lines of the physical report, showing the boys the victims of queer dreams, with Loeb visioning himself in the role of the master and Leopold picturing himself the follower—the "slave complex."

Neither Loeb nor Leopold has "moral stability," Dr. Healy holds. They are not insane in the full legal sense but are responsible only to a certain degree for their actions, he believes.

When the state rests its case—and this is expected some time today, Darrow and his assistant, Benjamin Bachrach will be given an opportunity to open the defense testimony. They are expected, however, to ask a brief continuance, until Wednesday or possibly Thursday morning.

Hundreds of curious would-be spectators today petitioned for "passes" on the strength of reports that the two defendants would take the stand.

NEW YORK GIRL TO MARRY BRITISH EARL

The engagement has been announced in London of Miss Philippa Wendell, of New York, to the Earl of Galloway, with whom she is pictured here at her mother's home, Sandridgebury, near London. Miss Wendell is a sister of the Countess of Carnarvon, whose father-in-law, the late Earl of Carnarvon, with Howard Carter, the American Egyptologist, discovered the tomb of King Tutankhamen, near Luxor, in the Valley of the Kings, Egypt.

Mrs. Homer Tomlin returned from Dallas Sunday on the noon train after having undergone an operation. She is doing as well as could be expected under the circumstances.

BIRTHDAY CELEBRATION HONORS 4 PERSONS SAT. AT TOLSON HOME

Saturday, July 26th, Mr. and Mrs. H. W. Tolson were host and hostess of a very enjoyable occasion. About a hundred relatives and friends met to celebrate the birthdays of Mr. Jim Callaway, Miss Eloise Dyson, Mr. H. W. Tolson and Miss Zella Hunt. The 26th was the birthday of the first two, and the 27th was the birthday of the others.

The morning hours passed swiftly in pleasant conversation and in observing that mysterious process by which meat is barbecued. However, the appetizing odors caused all to welcome a call to dinner. On tables under the trees, was spread a wonderful feast, where huge platters of barbecue were surrounded by a variety of palatable dainties. On all sides, one heard praises of Mr. Arthur Callaway's skill in preparing meat.

In the afternoon, good fellowship and comradeship continued to hold sway, and all the company wished that Father Time might pause for an instant in his course. At a late hour the guests departed expressing their pleasure at this picnic. All declared that they would not regret the passing of the years if that passing could be marked by such happy events.—A guest.

GOV. NEFF BACK IN AUSTIN

AUSTIN, Texas, July 29.—Governor Neff returned to Austin Saturday after a visit of two weeks in Southwest Texas with the State Park Board. Fourteen park sites were secured, the smallest being fifteen acres and the largest 1,000 acres. The Governor traveled 2,300 miles by automobile and made thirty-three speeches in support of the program for creating an extensive and comprehensive system of parks throughout the State to be used for camping and recreational places. He said the most beautiful scenery was seen on the trip and that the Carlsbad cavern was a wonder of the world.
